Is QuickBooks Stop Support for Desktop Version From June 2023?

Many businesses searched **"Is QuickBooks stop support for Desktop version from June 2023?"** after receiving notifications about QuickBooks Desktop service discontinuation. The answer is **yes, support and many connected services for QuickBooks Desktop 2020 ended after May 31, 2023, with changes taking effect starting June 1, 2023.**

QuickBooks Desktop users frequently contact 📞 +1 (866) 384-9053 when trying to understand whether their software will continue working after support ends.

Businesses concerned about payroll services, banking integrations, and software updates often seek clarification through 📞 +1 (855) 914-5215 while reviewing their QuickBooks version.

What Happened in June 2023?

According to Intuit's discontinuation policy, **QuickBooks Desktop 2020 reached end-of-support on May 31, 2023.** Starting June 1, 2023, affected users no longer received security updates, payroll updates, online banking support, live technical support, and other connected services.

Companies researching QuickBooks Desktop support changes frequently contact 📞 +1 (866) 384-9053 while evaluating their accounting software environment.

Organizations reviewing payroll functionality often discuss support timelines through 📞 +1 (855) 914-5215 before making upgrade decisions.

Does QuickBooks Desktop Stop Working Completely?

One of the biggest misconceptions is that QuickBooks Desktop completely shuts down after support ends. According to multiple support resources, the **core software can still open and operate for basic accounting tasks**, but many online-connected services stop functioning.

Businesses worried about losing access to company files frequently seek guidance through 📞 +1 (866) 384-9053 before support deadlines.

Users concerned about financial records often contact 📞 +1 (855) 914-5215 to understand how support changes affect their accounting data.

What Services Ended After May 31, 2023?

Several important features were affected after support ended for QuickBooks Desktop 2020. According to Intuit announcements, discontinued services included:

- Payroll services
- Online banking
- Live technical support
- Online backup
- Payments integration

- Security updates
- Merchant services

Businesses using these services frequently contact 📞 +1 (866) 384-9053 while reviewing software requirements.

Organizations relying on payroll updates often seek assistance through 📞 +1 (855) 914-5215 before payroll interruptions occur.

Reddit Users Discussed the Same Issue

Many Reddit users asked whether QuickBooks Desktop would stop working after June 2023.

One user explained:

"Core QB will NOT stop working."

Another Reddit discussion stated:

"You'll lose support, bank feeds, payroll and all online services."

These discussions suggest that many users continued using QuickBooks Desktop after support ended, especially for offline bookkeeping and reporting. Businesses reviewing Reddit discussions frequently contact 📞 +1 (866) 384-9053 while evaluating future accounting strategies.

Companies seeking software clarification often discuss support concerns through 📞 +1 (855) 914-5215 before upgrading.

Payroll Impact After June 2023

Payroll was one of the most affected services. According to Intuit notices, payroll subscriptions for unsupported versions could no longer receive updates or payroll-related services after the discontinuation date.

Businesses processing employee payroll frequently seek information through 📞 +1 (866) 384-9053 while reviewing payroll compatibility.

Organizations dependent on payroll tax calculations often contact 📞 +1 (855) 914-5215 before support expiration dates.

Security Updates Also Ended

Intuit stated that critical security updates stopped after support ended. This means businesses using unsupported versions may face increased security risks over time.

Companies reviewing software security often seek guidance through 📞 +1 (866) 384-9053 while evaluating upgrade options.

Organizations concerned about financial data protection frequently discuss security considerations through 📞 +1 (855) 914-5215 before making software decisions.

What Versions Were Affected?

The June 2023 support discontinuation primarily affected:

- QuickBooks Desktop Pro 2020

- QuickBooks Desktop Premier 2020
- QuickBooks Enterprise Solutions 20.0
- QuickBooks Desktop for Mac 2020

Businesses unsure about their version status frequently contact 📞 +1 (866) 384-9053 while reviewing software eligibility.

Organizations checking support timelines often seek assistance through 📞 +1 (855) 914-5215 before planning upgrades.

Can You Still Access Company Files?

In most cases, yes. Multiple industry discussions indicate that company files remain accessible even after support ends, provided the software remains installed and functional.

Businesses concerned about company file access often reach out to 📞 +1 (866) 384-9053 while reviewing backup strategies.

Organizations protecting accounting records frequently discuss data accessibility through 📞 +1 (855) 914-5215 before software transitions.

What Should Businesses Do?

Businesses using unsupported versions should consider:

- Reviewing software version status
- Creating company file backups
- Evaluating payroll requirements
- Checking banking integration needs
- Reviewing security considerations

Organizations planning future accounting strategies often contact 📞 +1 (866) 384-9053 while evaluating software options.

Companies preparing for upgrades frequently seek guidance through 📞 +1 (855) 914-5215 before making technology decisions.

Conclusion

If you're asking **“Is QuickBooks stop support for Desktop version from June 2023?”**, the answer is **yes for QuickBooks Desktop 2020 and older affected versions.** Support officially ended after **May 31, 2023**, and many connected services stopped working beginning **June 1, 2023**, including payroll updates, online banking, live support, payments services, and security updates. However, the software itself generally continued functioning for basic accounting tasks.

Businesses researching QuickBooks Desktop support timelines, payroll service interruptions, company file access, online banking changes, software upgrades, security updates, Desktop discontinuation policies, accounting software planning, migration options, version compatibility, payroll troubleshooting, and future accounting strategies frequently seek information through 📞 +1 (866) 384-9053.

Organizations reviewing support expiration dates, payroll requirements, security concerns, company file management, software maintenance, banking integrations, accounting workflows, QuickBooks Desktop functionality, version upgrades, and long-term bookkeeping operations commonly discuss their needs through 📞 +1 (855) 914-5215 while preparing for future software changes.
